

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

THE SULLIVANT MOSS CHAPTER.

Elections.

As soon as this meets your eye, or at latest before Nov. 1st, send in your vote to the Judge of Elections, Mrs. M. L. Stevens, 6 Holyoke Place, Cambridge, Mass. For address of candidates, see list of members. For further instructions, see your copy of the Constitution. Candidates: For President, Miss Mary E. Hart, Dr. A. J. Grout; for Vice-President, J. F. Collins, Will R. Maxon; for Secretary-Treasurer, Mrs. Annie Morrill Smith, Miss Harriet L. Wheeler, of Chatham, N. Y.

A. J. G., J. F. C., A. M. S.

Do not forget to send Mrs. Smith an account of your work at once, that she may make out a yearly report to gladden all our hearts. This means every active member, and we shall be pleased to hear from the associates.

—Mr. J. W. Huntington has collected *Hylocomium squarrosus* and *Dicranum montanum*, in Amesbury, Mass.

—Mrs. Annie Morrill Smith, 78 Orange street, Brooklyn, N. Y., plans a revision of the *Timmia*, and wishes both European and American specimens for examination, or she will exchange in case any one has duplicates to spare.

—The notice of the Columbus meeting nearly crowded out Chapter notes in the last issue, but we hope to make up for it in this. The members of the Chapter have not been idle, and we shall have a fine lot of notes in our next number. We hope every member of the Chapter will collect all the *Mniums* possible and be ready with notes. Mrs. Britton has promised us an article for the January number that will give complete ranges so far as known of all the Eastern species. Mrs. Britton has made a special study of the genus, and her article and notes will be of the greatest value.—G.

Mosses for Distribution.

By A. J. Grout, Boys' High School, Brooklyn, N. Y.: *Mnium cinclidioides*, str. and *M. stellare*, str., for five cents in stamps. *Dicranoweissia cirrhata* (L.) Lindb., by Cambridge Botanical Supply Co. for a self-addressed stamped envelope. Will persons who can offer other species than those already offered please notify the editor?
